PROMETHEUS
G R O U P®

EXPERIENCE THE DIFFERENCE.

The Prometheus Group®, Est. 1989, specializes in the design, development, manufacture, and sales of systems for pelvic health and orthopedic rehabilitation.

At Prometheus, we are passionate about **CUSTOMER VALUE**. With more than 5000 unique clientele worldwide, we believe this is represented in the essence of our business:

Unparalleled **Technical Support**

We provide the highest level of technical assistance through a number of support channels; phone, email, and remote access. We understand your time is precious. Our extended hours make our support services more accessible; resulting in a positive user experience.

Exceptional **Customer Service**

Our priority is to build and maintain lasting relationships with our clients. Friendly, knowledgeable, and professional team members are always available to take your call.

Dedicated **Sales Managers**

Our team of field experts are ready to guide you in the right direction and support you throughout your decision-making process and beyond.

Made in the U.S.A.

The Prometheus Group® combines modern technology and ease of use to provide the most comprehensive and advanced high-quality American-made equipment on the market.

The choice is yours, **EXPERIENCE THE DIFFERENCE**, and become part of the Prometheus family.

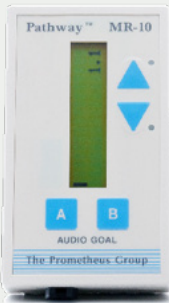

PATHWAY® MR Series

Single & Dual Channel sEMG Systems

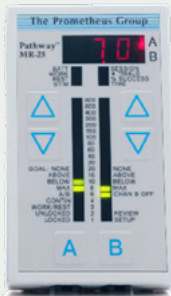

PATHWAY® MR-20

Dual Channel sEMG System with Alpha/Numeric LCD Display

PATHWAY® MR-10

Single Channel sEMG System with Alpha/Numeric LCD Display

PATHWAY® MR-25

Dual Channel sEMG System with Vivid Tri-Color LED Display

PATHWAY® MR-15

Single Channel sEMG System with Vivid Tri-Color LED Display

* Additional accessories may need to be purchased in order to adapt the system for clinical needs.

- ❖ User friendly
- ❖ Portable, hand-held device
- ❖ Flexibility to choose from continuous operation or work/rest prompts
- ❖ Automatic data storage
- ❖ USB communication to PC
- ❖ Convenient 9V battery
- ❖ Select from a multitude of goal type options:
 - ◆ Above tone
 - ◆ Below tone
 - ◆ Goal off
 - ◆ Maximum display with marker
 - ◆ Matrixed audio feedback
 - ◆ A/B ratio for dual channel systems
- ❖ Multiple software options available
- ❖ Compact carry case

Telesis® Software Complements the PATHWAY® MR Series by

Multiple Display Options

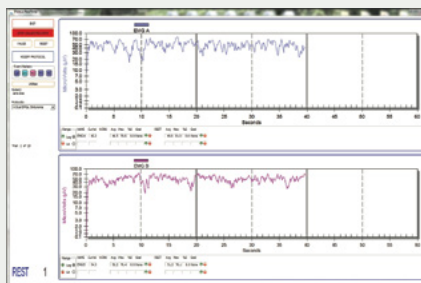

Extensive library of treatment displays to include animated video clips, color graphics, and the ability to modify application protocols.

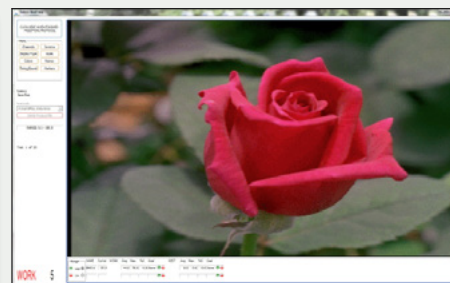

Telesis® Software

Premier Privacy & Compliance

Password protection, multi-level access, patient identifiers and audit management included.

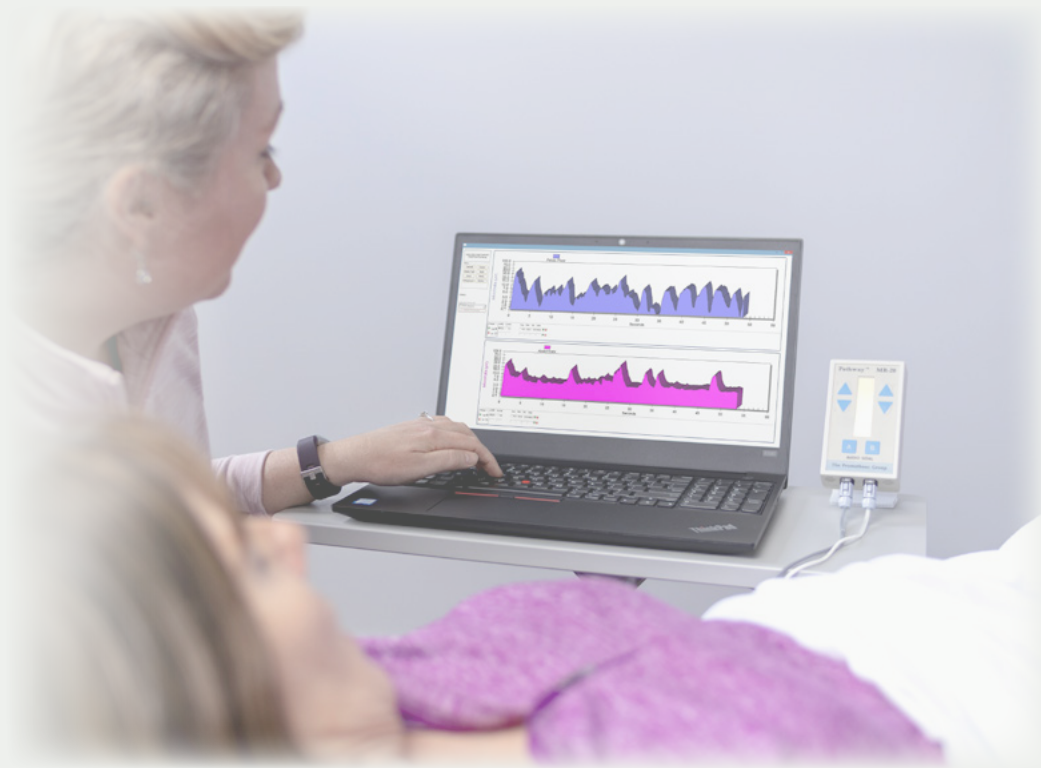

Telesis® in Real-Time Window

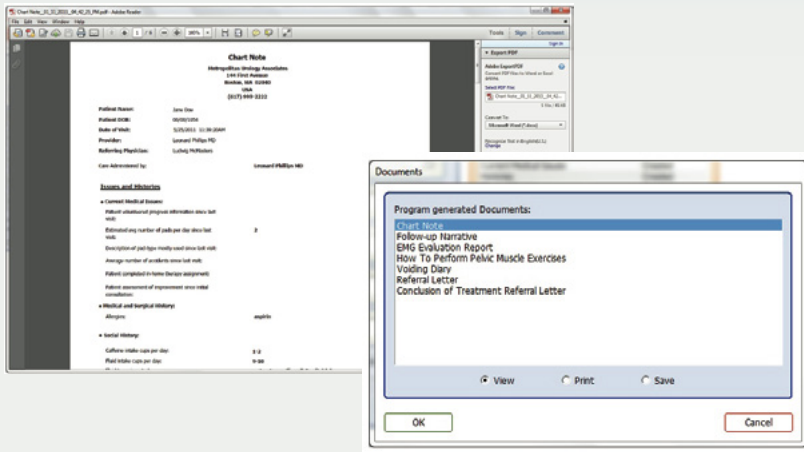

Blooming Rose

File Path Transfer of Records to EMR

Automatic and manual database backups, database encryption, and file paths for document transfer.

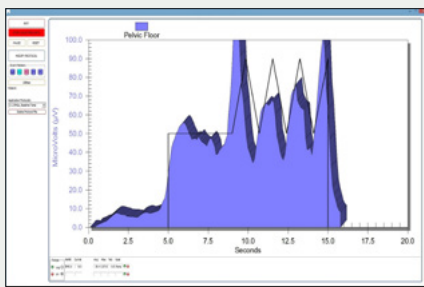

Enhancing Assessment, Performance, and Providing Documentation

Program Generated Documents

Produce comprehensive chart note and narrative format reports.

Template Emulations

Minimum Computer Requirements for Telesis® and Primus® software

- Operating System: Windows® 10 Professional
- 64-Bit Operating System
- Processor Type: Intel® Core i5 or higher
- RAM: 8 GB Minimum
- 256 GB Minimum Available Hard Drive Space
- Available USB Ports

**Computer specifications can be modified at any time without notice*

PATHWAY® TR Series

Single & Dual Channel sEMG Trainers

PATHWAY® TR-20

Dual Channel sEMG Trainer

PATHWAY® TR-10

Single Channel sEMG Trainer

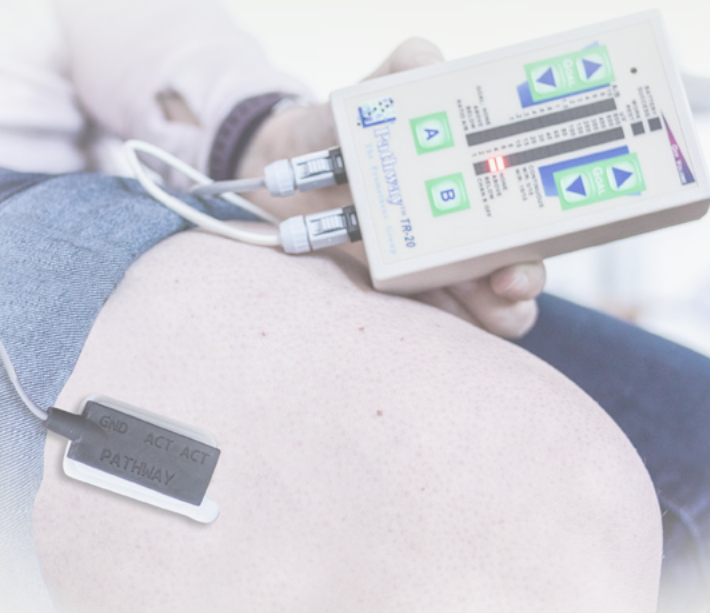

PATHWAY® TR-20C

Dual Channel sEMG Trainer with Compliance Features (Ability to Download Stored Data)

PATHWAY® TR-10C

Single Channel sEMG Trainer with Compliance Features (Ability to Download Stored Data)

- ❖ Affordable
- ❖ User friendly
- ❖ Portable, hand-held device
- ❖ Flexibility to choose from continuous operation or work/rest prompts
- ❖ Vivid LED display
- ❖ Convenient 9V battery with LED battery check
- ❖ Select from a multitude of goal type options:
 - ◆ Above tone
 - ◆ Below tone
 - ◆ Goal off
 - ◆ Matrixed audio feedback
 - ◆ A/B ratio for dual channel systems
- ❖ Transition from clinical to home treatment
- ❖ Compact carry case

** Additional accessories may need to be purchased in order to adapt the system for clinical needs.*

PATHWAY® STM-10 Vaginal and Rectal Intracavity Stimulator

PATHWAY® STM-10
Vaginal and Rectal
Intracavity Stimulator

PATHWAY® Vaginal
sEMG/Stimulation Sensor

PATHWAY® Rectal
sEMG/Stimulation Sensor

- ❖ One channel of vaginal or rectal intracavity stimulation
- ❖ 12.5 Hz, 50 Hz, 100 Hz, 200 Hz, and sequential 12.5 Hz / 50 Hz frequencies
- ❖ Microprocessor controlled
- ❖ Powered by a readily available 9V battery
- ❖ Programmable treatment time and on/off intervals
- ❖ Treatment protocol storage
- ❖ Treatment compliance monitor
- ❖ Emulates the stimulation capabilities of its clinical counterparts
- ❖ Transition from clinical to home treatment

High resolution
ultrasound imaging at a
fraction of the cost

✓ Designed for pelvic health and
spinal stabilization

FEATURES & BENEFITS

Updated software interface offering a more seamless user experience

Intuitive, modern software screens for easy imaging and annotating.

Cine export as MP4

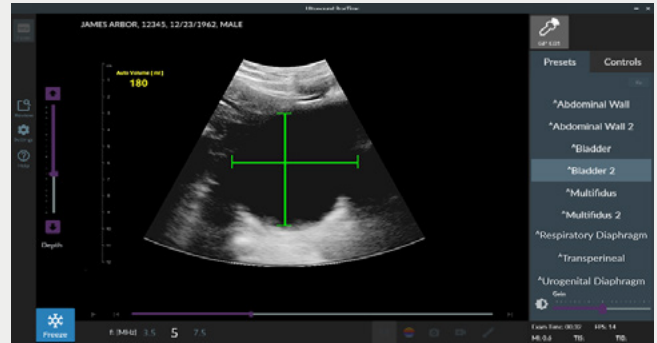

Provides the ability to play the cine outside of the ultrasound software.

Preset protocols for quick image access

Save time and effort utilizing a multitude of pre-loaded, preset protocols to include respiratory and urogenital diaphragm.

Automatic bladder volume calculations

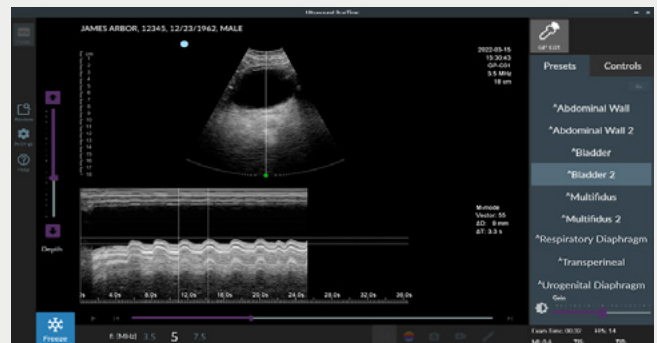

For more precise and accurate post void residual patient assessments.

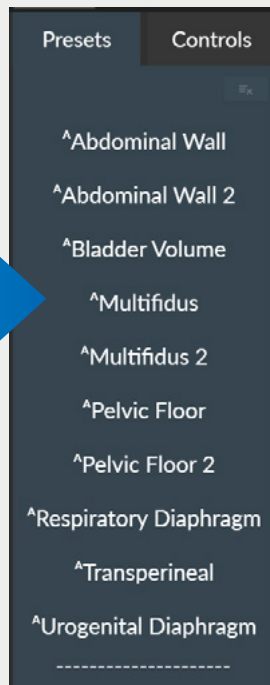

Select from a variety of advanced imaging modes

View of the Respiratory Diaphragm using B-Mode (Brightness Mode).

View of the Pelvic Floor Using M-Mode (Motion Mode) for making measurements of tissue excursion.

PELVIC HEALTH

ORTHOPEDIC

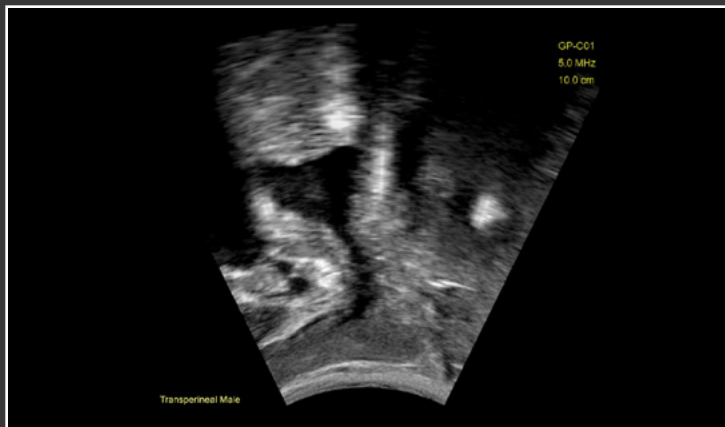

“Research reveals that the primary impairment of the muscular system in individuals with low back pain is not one of strength or functional capacity but rather one of motor control of the deep muscles of the trunk. The use of ultrasound imaging to observe the real-time contraction of muscles is a valuable tool, specifically when the muscles of interest are deep and not readily observable” (Whittaker, 2004).

Pelvic Floor Muscles, Poor Stabilization During Functional Task

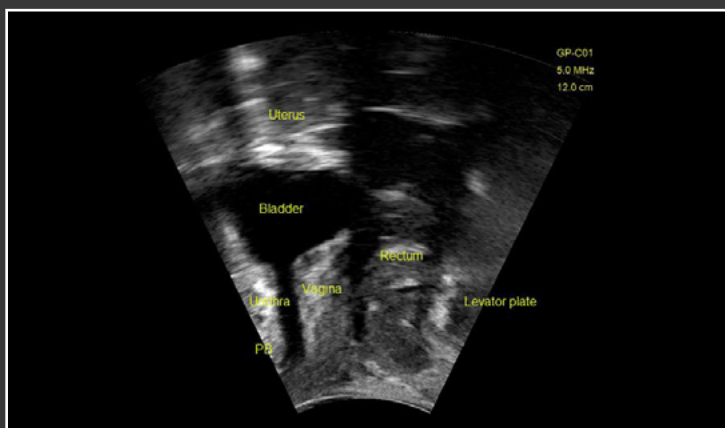

Lateral Abdominal Wall (Muscles Contracted)

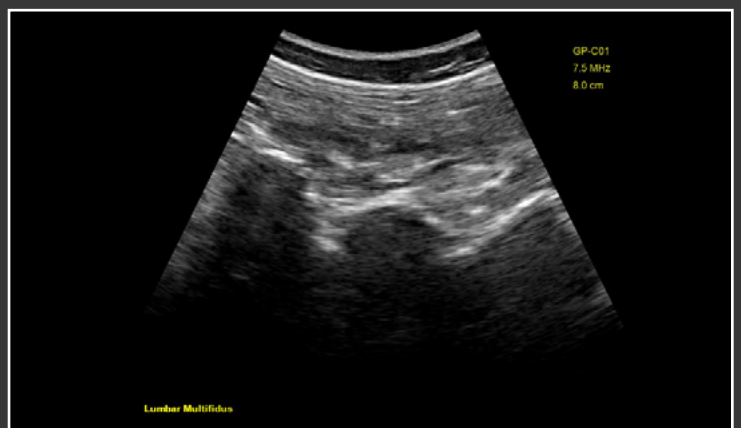

Transperineal View Male, Post Prostatectomy

Anterior Abdominal Wall with Measurement of Inter-Rectus Distance

Transperineal View Female Pelvis

Lumbar Multifidus

EQUIPMENT SPECIFICATIONS

Accuracy:

Distance: $\pm 2\%$, ± 2 mm

Ultrasound Probe Dimensions and Weight:

Width: 6.2 cm (2.44 in)
 Height: 2.6 cm (1.02 in)
 Length: 15 cm (5.9 in)
 Weight: 110 grams (3.88 oz)

Minimum Computer Requirements:

Display: 12.1 in
 Resolution: **1920 X 1080**
 Processor: Core I5 2.3 GHZ
 RAM: 8 GB
 Hard Drive: 256 GB
 Battery: 38 Whr Rechargeable Battery
 (Providing 4+ hours of use)
 Length: 30.0 cm (11.8 in)
 Width: 20.1 cm (8.1 in)
 Height: 1 cm (0.4 in)
 Weight: 0.9 kg (1.98 lbs)

Consumables:

Ultrasound Gel, .25 Liter
 Part: UG

Optional Equipment:

System Carry Bag
 Part: PBAG

* Wire basket optional

Point of Care Cart for Notebook or Tablet Computer Ultrasound
 Part: PPOC-QS

Ultrasound Output Parameters:

Depth Range: 2 - 30 cm (Selectable, 1 cm increments)
 Pulse Frequency: 3.5 MHz, 5 MHz, 7.5 MHz (Selectable)
 Focal Zone: Programmable
 Focal Point: Dynamic
 Scan Angle: 60°
 Scan Mode: B-Mode
 Patient Contact Sector Length: 49 mm (2.5 in)
 Frame Rate: 20 fps
 ISPTA.3: 13.7 mW/cm² (maximum)
 ISPPA.3: IPA.3 @ MI_{max} = 180 W/cm²
 Mechanical Index: 1.02 (maximum)
 Transducer Resonant Frequency: 5.0 MHz (calculated center freq.)
 Transducer Bandwidth: Over 60%
 Number of Scanning Planes: 1
 Pulse Repetition Frequency: 5.1 kHz
 TIS: 0.115

Pathway® GP-C01 3.5-7.5MHz Curved Array
 Ultrasound Imaging Transducer

EMYO® Series

Single & Dual Channel EMG Systems for Adult and Pediatric Pelvic Floor Rehabilitation

EMYO®100
Single Channel EMG

EMYO®200
Dual Channel EMG

EMYO® Model Comparison

EMYO® Model	EMYO®100	EMYO®200
Primary (Pelvic) Muscle EMG	✓	✓
Secondary (Accessory) Muscle EMG	—	✓
Wireless Communication	✓	✓
Gaming Functionality	✓	✓

Portable

EMYO[®] is a wireless, wearable, single, or dual channel EMG module.

Adaptable

Single or dual channel EMG module and the extended HDMI monitor can be wireless or interfaced via cable.

Extended HDMI Monitor

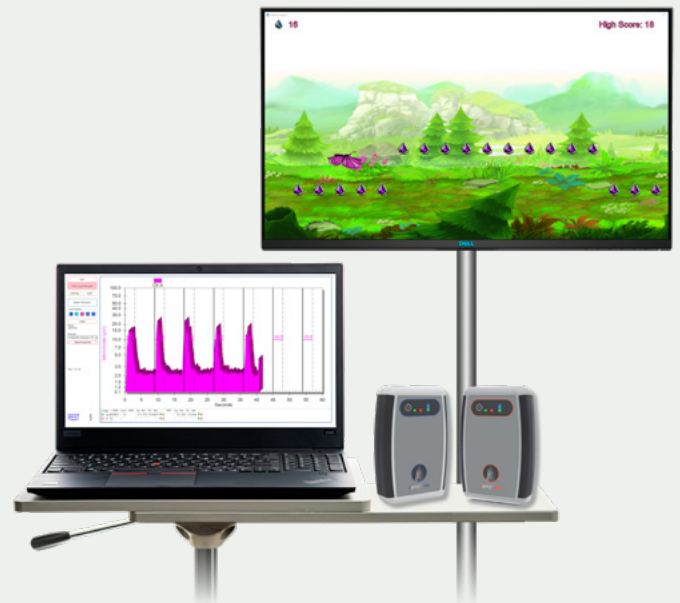

Engages the patient with entertaining gaming graphics.

Coordination Training

Pelvic floor and accessory muscle timing and control.

Easily Customize Protocols

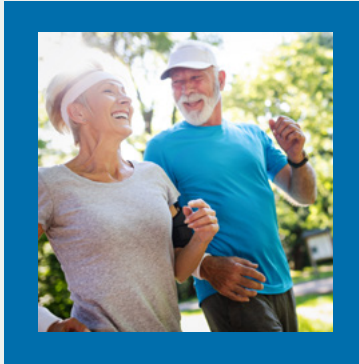

Goals, ranges, and work/rest intervals on the notebook PC translate to the extended HDMI monitor.

EMG Biofeedback with Gaming Displays

Enhance motivation with engaging audio and visual feedback, high score tracking, and a victory certificate!

PATHWAY® CTS 2000 or PATHWAY® CTS 1500 Pelvic Muscle Rehabilitation Systems Include:

- Notebook Computer
- Color Printer
- USB Serial Interface Cable
- USB Flash Drive Software Program
- PATHWAY® CTS 2000 or CTS 1500 Pelvic Muscle Rehabilitation System Operator's Guide
- PATHWAY® CTS 2000 or CTS 1500 Pelvic Muscle Rehabilitation System Module

PATHWAY® CTS 2000 and PATHWAY® CTS 1500

PATHWAY® CTS 2000

The Pathway® CTS 2000 Pelvic Muscle Rehabilitation System Module providing one Channel of Vaginal and Rectal Intracavity sEMG or External Pelvic Muscle sEMG, One Channel of Accessory Muscle sEMG, One Channel of Vaginal and Rectal Electrical Stimulation, One Channel of Rectal Pressure Manometry.

Simultaneously Monitor Two Channels of sEMG and Rectal Pressure Manometry

Available on the Pathway® CTS 2000 only.

Accessories Included

Starter kits include multiple accessories to begin in clinic use immediately.

Documentation

Chart note and narrative reports. PDF and Microsoft Word editable documentation. Review and compare sessions, track progress, and transfer documentation to a specific file location.

sEMG and Stimulation on a Single Platform

One channel of sEMG to perform muscle contractions and monitor muscle fatigue while providing synchronous stimulation.

Database

Database encryption with automatic or manual backup.

Premier Privacy and Compliance

Multi-level password protection, provider and administrative access controls, unique patient identifiers and audit management.

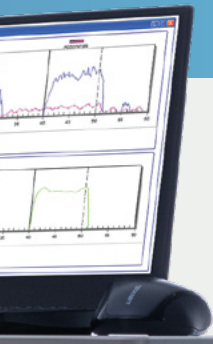

Support Services

Unlimited hardware and software Technical Support and Team Viewer remote support. (On-site clinical training included with the Pathway® CTS 2000 only).

Custom Protocols

Set goals, display type, single or split-screen, colors, work/rest intervals, and markers. Name and store protocols on the treatment list.

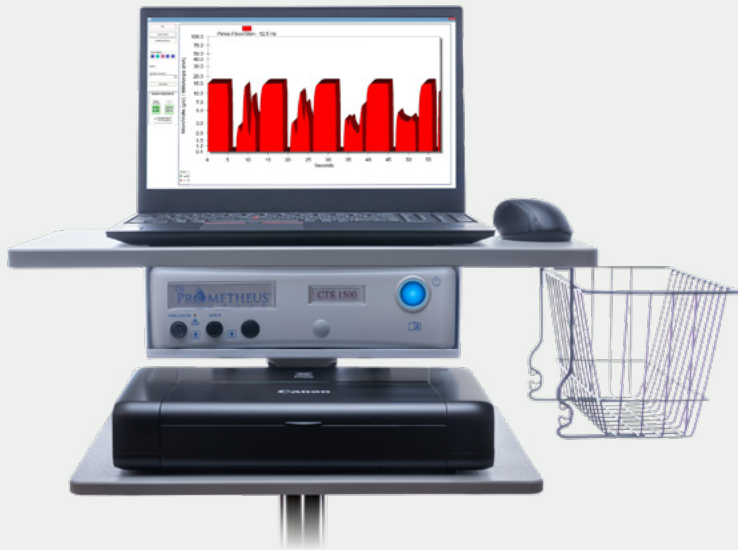

Pelvic Muscle Rehabilitation Systems

Wire Basket (Optional)

Point of Care Cart for Pathway® CTS 2000 and Pathway® CTS 1500 (Optional)

PATHWAY® CTS 1500

The Pathway® CTS 1500 Pelvic Muscle Rehabilitation System Module providing one Channel of Vaginal and Rectal Intracavity sEMG or External Pelvic Muscle sEMG, One Channel of Accessory Muscle sEMG, One Channel of Vaginal and Rectal Electrical Stimulation.

Software documentation includes an extensive compilation of clinical reports, histories, examinations and exercise prescriptions.

Let's Grow Your Practice Together.

PATHWAY® CTS 2000 and PATHWAY® CTS 1500

Simultaneous Pelvic and Accessory Muscle sEMG with Rectal Pressure

* Intuitive Software Interface for Seamless Treatment Navigation

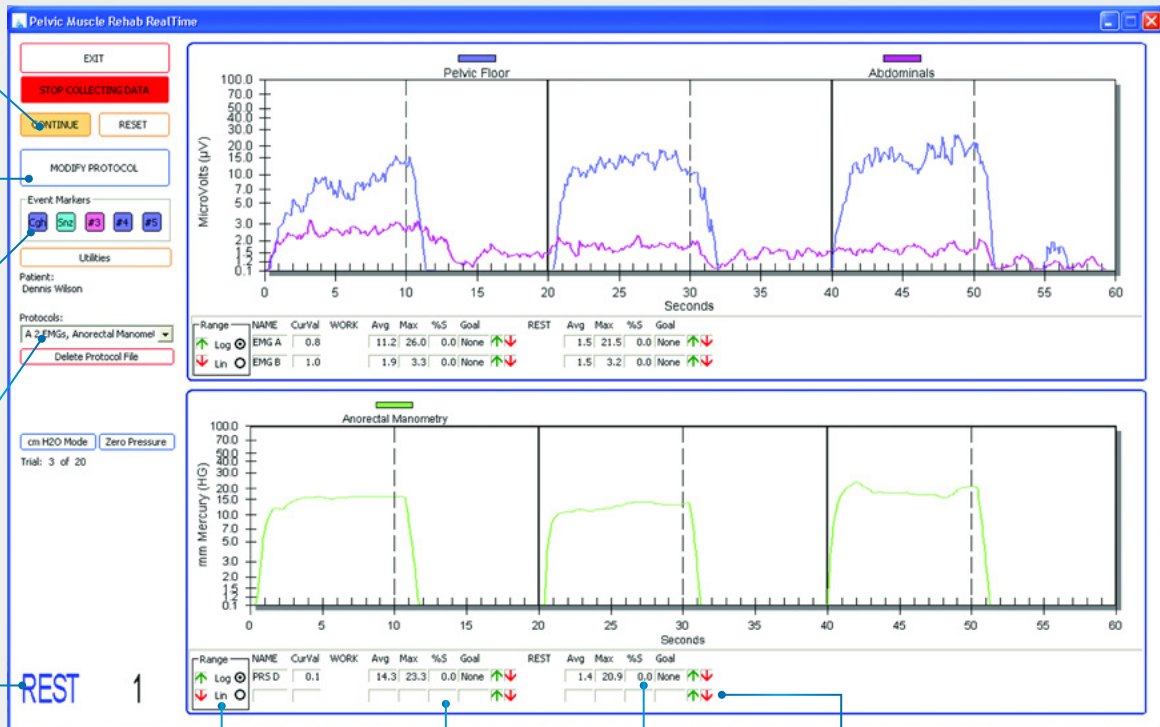

Freeze Frame or Restart Study

Comprehensive Menu of User Defined Treatment Parameters

Interactive Event Markers

Drop-Down List of Default and User Defined Protocols

Work/Rest Prompts

Change Ranges on the Fly

Resting, Mean, Minimum and Maximum Pressure Measurements

Real Time Percentage Success

On Screen Audio and Visual Goal Adjustments with Matrixed Audio Feedback

*Rectal pressure available on the PATHWAY® CTS 2000 only.
